

USPA-PYRN Educational Fund (UPEF) Donation Form

UPEF Overview

The **USPA-PYRN Educational Fund (UPEF)** was established to promote cooperative efforts between the USPA and the Permafrost Young Researchers Network (PYRN). The purpose of the UPEF fund is to promote education on science and engineering issues related to permafrost. A focus of these activities is the promotion of students entering into fields of interest related to permafrost through financial support for the professional development of the next generation of permafrost researchers. UPEF provides merit-based opportunities for research and travel grants to the American Geophysical Union annual meetings and other domestic and international scientific conferences including Regional and International Conferences on Permafrost.
